

Waterloo Biofilter Systems Inc.
on-site wastewater treatment

WBS Pump Chambers

- Made of 32 kPa double-wall extruded HDPE
- Acid-proof; excellent in areas of high sulphur
- Float tree assemblies pre-installed (float tree sold separately)
- Sized for correct demand dosing of the Biofilter
- Light-weight and easy to install
- Lockable access hatch included
- Anti-floatation available for clay soils (call for details)

MODEL	Diameter	Total Height	Outlet Height	Working Capacity	Total Capacity	Price	Notes
WB5-24	24"	5'	3'	267	445	495.00	Ideal for demand dosing for $Q \leq 3,000$ L/day
WB6-24	24"	6'	3'	267	534	525.00	Ideal for demand dosing for $Q \leq 3,000$ L/day
